Boycott israeli products

(self.ZionistPorn)

submitted 7 years ago by [calmingmonkey](#)

Choosing which product to buy is and which product to sell is an individual right and and so is boycotting any countries products. Especially if the country is Israel, which has no respect for international law or human rights it makes even more sense and legitimate as economic sanctions on Israel should have been put along time ago. But due to US backing this never happened. And now criminalizing boycott of Israeli goods makes more clear who is running democracy and for whom. Unless an until Zionist agenda and interest is taken care of there is no problem but if country tries to threaten there agenda then whole of pseudo democratic countries propagandize and bomb there countries.

Amazon is a big supporter. I've switched to AliExpress.
